*Illuminating **the future** together*

HEKA Lighting & Design

Our lighting adventure, which started in 2009, turned into a passion rather than a trade in a short time. Our priority has always been to keep the innovative and service quality at the highest level. We took our lighting solution business one step further by adding the filament led bulb group to this adventure that we started with the import of chandeliers in a short time. By adding chandelier manufacturing to our structure, we aimed to both increase our domestic employment and take our business one step further.

In addition to being a solution partner by designing and manufacturing with our business partners in the lighting departments of special project works, we also follow all the innovations in the Filament led bulb group, make special designs, and wholesale customer-oriented creative projects and products to our business partners in the concept of **HEKA Lighting & Design**.

As **HEKA Lighting & Design** grows and enriches with new and aesthetic products day by day with innovations and developments in technology. We, as **HEKA Lighting & Design**, are reshaping the future of light with the speed of light with a 360-degree full-service understanding in the field of lighting technologies in the field of R&D-design-projecting-production and application...

Hope to see you in the days when we will transform the lighting into even more decorative and enjoyable...

HEKA Lighting & Design continues to shine, to be the light of your life...

LIGHTING & DESIGN

BULB FEATURES

Product code : Erd-28
Product Type : A60
Cap Type : E27
Voltage : 220-240V AC
Dimmer : Yes
Lifetime : 15,000h*

*The lifespan of the bulbs is calculated based on approximately 5 hours of use per day.

LIGHT FEATURES

Light Power : 350Lm
Colour : Daylight
Color Temp. : 3200k

ENERGY CONSUMPTION

Voltage: : 4W
Energy Efficiency : F

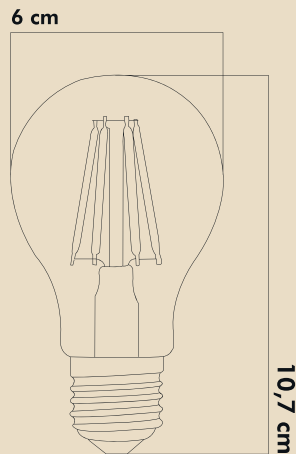

PACKAGE DIMENSION AND WEIGHT

HEKA LED FILAMENT RUSTIC BULB

220-240V 5 Watt 120Lm E27, Honey Glass 2200k Daylight

BULB FEATURES

Product code : Erd-1453/1
 Product Type : Heka Special Design
 Cap Type : E27
 Voltage : 220-240V AC
 Dimmer : Yes
 Lifetime : 15,000h*

*The lifespan of the bulbs is calculated based on approximately 5 hours of use per day.

LIGHT FEATURES

Light Power : 120Lm
 Colour : Daylight
 Color Temp. : 2200k

ENERGY CONSUMPTION

Voltage: : 5W
 Energy Efficiency : G

PACKAGE DIMENSION AND WEIGHT

In The Package : 1 Pcs
 Box Size : 20x19x32.5
 Box WEIGHT : 930 Kg.
